AT THE HEART OF HEALTH™

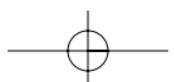

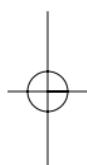

Preferred Prescriptions® Member Guide

Please bring this guide with you on your next doctor visit.

Medco manages your prescription drug benefit for your health plan.

Improving health while lowering costs keeps **Medco at the heart of health.™**

Preferred Prescriptions® is a formulary list of medications that may be covered under your prescription drug plan. This list was reviewed by an independent group of practicing doctors and pharmacists, and it contains medications made by most pharmaceutical manufacturers. It includes medications for many covered conditions.

SAVING MONEY ON PRESCRIPTIONS

Your plan may prefer some medications over others. These are called *preferred drugs*.

You may pay:

- Lowest co-payment/co-insurance for generic drugs
- Higher co-payment/co-insurance for preferred brand-name drugs
- Highest co-payment/co-insurance for nonpreferred brand-name drugs

Your doctor may be able to help you save money by prescribing generic and preferred brand-name drugs if appropriate. So be sure to bring this guide with you on every visit to your doctor. Some commonly prescribed nonpreferred drugs are also listed in this guide for your reference.

Please note: This guide does not contain a complete list of preferred and nonpreferred drugs. It only lists the *most commonly prescribed drugs*. For an updated and complete listing of your prescription benefit, you can visit the “Benefit Highlights” section of our website—www.medco.com—and click on the View your preferred drug list link. Not all medications listed here are covered by every prescription drug plan.

FINDING MEDICATIONS WITH LOWER CO-PAYMENTS/CO-INSURANCE

This guide lists medications two ways to help you find some generic, preferred, and nonpreferred brand-name drugs.

SECTION I - ALPHABETICALLY BY DRUG CATEGORY (SUCH AS RESPIRATORY)

Within each category, medications are listed in alphabetical order, with generic, preferred brand-name, and nonpreferred brand-name drugs sorted separately:

- G Means a preferred generic medication
- P Means a preferred brand-name medication
- NP Means a nonpreferred brand-name medication

SECTION II - ALPHABETICALLY BY BRAND NAME

After each nonpreferred brand-name drug, you will find possible generic and preferred brand-name alternatives.

SAFETY CONSIDERATION SYMBOLS

Here is a quick guide for you and your doctor, which explains our safety symbols. These symbols appear next to certain medications.

-  Means weigh risk of birth defects or other adverse outcomes.
-  Means do not use in pregnancy.

The information in this guide was in effect at the time of printing and may be subject to change.
